

**We're ready to deliver.**

## **We will meet all your transportation needs.**

*Service is the core of our business.*

Let us put years of transportation expertise to work for you. From delivering frozen and perishable goods, to handling a wide variety of other products, we've done it all before. We will meet your transportation needs with direct-to-store deliveries (DSD), dedicated distribution services (DDS), and other customized less-than-truckload (LTL) and truckload (TL) services. Whatever your requirements, we'll find the solution that fits. We're deeply committed to providing you with reliable, on-time pickup and delivery with very competitive pricing. To ensure you always receive the best service at the most affordable price, we continuously strive to improve efficiency and manage costs.

## **We (literally) wrote the book on fresh and frozen transport.**

*Clark leads the way in handling perishable commodities.*

Your fresh and frozen products are safe in our hands from the moment they ship out to the moment they arrive at their destination. The trailers themselves are a given. What sets Clark apart are temperature-controlled cross-docking and freezers and coolers throughout our network of facilities to ensure correct product handling each step of the way. We also offer short-term storage when needed.

## **We know your community.**

*Ship from anywhere to anywhere with confidence.*

We grew up here, so we recognize your local needs. With a network of distribution facilities serving over 600 communities in British Columbia, we've got both local coverage and detailed knowledge of your community. We offer cross docking and local overnight service, including Saturdays, to most communities within BC.

## **We're green.**

*Clark Freightways is environmentally responsible.*

We live here too, so we share our customer's concerns about the environment. To ensure we leave as small a carbon footprint as possible, we've put in place such best practices as idling policies and other fuel-saving strategies, and our web-based services help you conserve paper.

## **We take freight seriously.**

*Our quality and safety standards are second to none.*

When handling and transporting your shipments, we use the highest standards of quality and service with well-established and documented Standard Operating Procedures. We also have the most extensive orientation and training standards in the industry. The safety of your shipment is our priority, which is why we lead the industry with our safety program and protocols. From the moment your products ship out to the moment they arrive, they're handled by the best trained transportation professionals in the industry.

## Shipping has never been easier.

### It's all at your fingertips.

*Our Web Services make shipping, tracking, and delivery easier than ever.*

We know time is money. That's why we've made shipping as easy for you as possible with our convenient and easy-to-use Web Services. With these services, you can:

- Create and store interactive Web Bills of Lading and labels online;
- Track shipments in real-time without having to re-enter all the data;
- Receive real-time delivery confirmation or exception notification through email;
- Retrieve Proofs of Delivery (POD) and Bills of Lading (BOL) online.

Overwhelmed by the repetitive details of shipping? There's no need to fill out the same details twice. With Clark's Web Services, you can create and store Bill of Lading templates for recurring orders.

## Your products are safe in our hands.

### We have the experience and knowledge to serve you best.

*Clark Freightways is a reliable and stable partner.*

We know transportation and have more than 50 years of experience to prove it. Clark Freightways is a stable, growing company with a long-term outlook and partnerships with some of the most well-known and respected companies in British Columbia. We're privately owned with a strong financial foundation. We hire the best to serve you best.

You can be confident in our ability to serve you. We ensure that each of our customers receives personalized service, exceptional quality, and superior value. Clark Freightways puts you first.

### The cutting edge of technology extends to the road as well.

*Clark Freightways is always learning and evolving.*

Just as our services are easy and time-efficient for you to use, we also invest in technologies that make our drivers efficient on the road.

In order to ensure your products reach their destination on time, we provide our drivers with the fastest, most direct routes possible through GPS-equipped dispatching and our advanced Transport Management System (TMS).
